Since our founding in 2002, Advance, the Global Australian Network, has focused on Australia's greatest national resource: our people—at home and abroad. As a non-profit organisation, the Gala Dinner is our only fundraiser to sustain Advance programs for the next generation of leaders, Australians working overseas and returning Australians.

This is your exclusive opportunity to be immersed in, and learn first-hand about Australia's global engagement, and a chance to network with your peers from a range of corporate, government and not-for-profit backgrounds.
